## **Report on trip to Nanivahiyal Dharampur**

## **08th March 2018**

Women Development cell organised a trip to Ashram shala, nani vahiyal on **8th March 2019** to create awareness among females that women's health and hygiene is very important for females.

Female students of GP valsad were taken on a trip to ashram shala by bus from college premises. After reaching the site, all students and staff had a warm welcome. Initially we had our introduction and then a short video was shown there to all females. Hygiene kits were distributed among all girls of Ashram shala. Later on we all had an interactive session about female health and lifestyle. Our students explained in detail about healthy food and diet. Women empowerment were defined in several ways, including accepting women's viewpoints or making an effort to seek them, raising the status of women through education, awareness, literacy, and training

The trip was very interactive. Students and faculties discussed and shared their views and ideas with all females of ashram shala.
