

GOVERNMENT POLYTECHNIC COLLEGE VALSAD
Electrical Engineering Department
EXPERT LECTURE REPORT

On **April 26, 2024**, Mr. M.Salim N Ajmeri delivered an expert lecture on "**Computational methods of Electrical Energy Tariff Structure**" for **6th-semester and 4th-semester** students. Currently serving as a Dy. Superintendent DGVCL at Billimora town. , Mr. M.Salim N Ajmeri facilitated the event.

The objective of the expert lecture was to familiarize students with the different types of tariff , Tariff schedule and computational methods of tariff.

The lecture took place in the Civil seminar hall, where 28 Third year students (SEM 6) and 26 second year students (SEM 4) from the Electrical Engineering department participated. Mr. M.Salim N Ajmeri meticulously guided the students about Schedule of Tariff for supply of Electricity for different consumers, service connection, use of power supply, Tariff structure and safety. .

From this seminar students are able to gain knowledge about different structure and how to calculate light bill .

Throughout the session, Mr. M.Salim N Ajmeri effectively correlated different topics, ensuring an engaging learning experience for the students. He emphasized the significance of Tariff structure and Energy conservation Tips.

The organization and coordination of the expert lecture were managed by Mrs.P D Vachhani, Lecturer in Electrical Engineering, Ms N A Patel and Mr. H.N. Lad, Lecturer in Electrical Engineering.

Name of Course	Energy conservation and audit.
Code	4360903
CO Covered(6th sem)	CO4 - Energy conservation in power Generation ,Transmission and Distribution.
PO Covered (6th sem)	PO5,PO7
PSO COVERED(6th sem)	PSO 3
Name of Course	Distribution and utilization of electrical power.
CO Covered(4th sem)	CO 3- Acquire knowledge about tariff structures and power factor improvement.
PSO COVERED(4th sem)	PSO 3
