Best Practices by Institute:

To become a model institute to provide Outcome Based Education, the salient best practices pursued by the institute are as follows:

1) Industrial Visits:

Industrial visits give students a major exposure to real working environments along with a practical perspective of a theoretical learning concept relevant to their domain. Every program of our Institute arranges at least two industrial visits per semester.

2) Expert Lectures:

Expert Lecture provides an important educational experience for students based on their real-world life experiences. Every program of our Institute arranges at least two expert lectures per semester.

3) Effective Implementation of Government Schemes for Enhancement of students:

I. Student start up policy (SSIP):

Under Student startups and Innovation Policy, various activities carried out by the institute. Such as sensitization programmes for students, webinars, boot camps, technical and financial support for innovative project, availability of tinkering lab, support at PoC stage, mentoring facility, availability of co working space and motivation to students for participating in Hackathon events.

II. Finishing school program:

Finishing school is an Employability Enhancement Initiative of the Education Department, Government of Gujarat for imparting training on Skill development for Higher and Technical Education to make them Industry-ready conducted since the year 2016-17. Finishing school program tends to strengthen students with self-esteem, self-confidence, professional skills, and functional communication skills which is the prerequisite for a healthy professional life and life in general with helps of experts trainers.

III. RUSA:

Under Rastriya Uchchatar Shiksha Abhiyan (RUSA), the institute organizes expert lectures to raise health awareness among girl students, remedial classes for students, workshops on "soft skills", "Personality Development

4) Project based learning:

Mini/ micro project helps the students to explore and strengthen the understanding of fundamentals through practical application of theoretical concepts.

5) Project Exhibition:

The college arranges exhibition cum competition of the projects done by the final year students to motivate and enhance the cult of engineering and science to first and second year students.

6) Sports and Cultural Activities:

Sports and cultural Activities are organized by the institute to provide an exposure and boost the hidden talents of the students.

7) Environment and Sustainability:

A. Cleanliness Campaign:

As per the directives of honorable prime Minister of India, College conducted the Cleanliness Campaign to educate students about the importance of cleanliness and respect for their environment.

B. Tree Plantation:

Tree plantation activity is organized by institute to educate students about importance of greenery. It is associated with our basic need of good food and fresh air. By planting trees, Students learn to preserve environment.

8) Mentoring system:

The Mentoring system is used to solve various problems, difficulties and queries of the students and also it helps in Professional guidance/career advancement/course work specific/all-round development of the students.

9) Yoga day celebration:

Yoga day is celebrated on 21 June every year by institute to raise awareness about the benefits of yoga among students.

10) Excellence Award:

The institute encourages topper students of each semester by presenting them trophies and certificates.

11) Feedback Analysis:

Student's feedback about teacher's performance and Institute facilities and follow-on action implemented.

12) Library Utilization:

To build reading habits from the first semester, institute arranges library hour for students. Students utilizes institute's library in that specific hour. Besides the library, institute also has reading room for students so that students can study there in their free time.

13) Inter-Department Inspection:

Institute conducts inter department academic inspection to ensure the academic activities according to Academic Calendar and Lesson Plan.

14) Pedagogical Intervention for Staff:

Institute conducts regular pedagogical sessions once in a month on academic, administrative and technical topics to impart knowledge among faculties.

15) Publication of Newsletter:

Institute regularly publishes monthly newsletter and disseminate through institute website and among students.

16) Institute Industry Interaction:

Institute is actively interacting with nearby industries in Valsad, Vapi Industrial area in interest of students. This includes signing MoU with industry to provide industrial exposure to students and for industrial visits and internships to students to bridge gap between industry and academia.

17) Dissemination of Vision, Mission Statement:

Vision mission statements of institute is disseminated on institute's website, prominent location at institute campus, Student Assessment files and also on staff and student's I-Card.

18) Student store:

Students store available in institute which avails all necessary stationary item at lower than market rate. Stationary items available like lab manuals, all paper stationaries, drawing instruments. Student store also operates tool bank which avails tools to students for job work in workshop laboratory.
